**Sahih Muslim Hadith** - Imam Muslim 2017-10-20

Imam Muslim (Muslim ibn al-Hajjaj) was born in 202 AH in Naysabur (817/818CE) and died in 261AH (874/875CE) also in Naysabur. He traveled widely to gather his collection of ahadith (plural of hadith), including to Iraq, Saudi Arabia, Syria and Egypt. Out of 300,000 hadith which he evaluated, approximately 4,000 were extracted for inclusion into his collection based on stringent acceptance criteria. Each report in his collection was checked and the veracity of the chain of reporters was painstakingly established. Sunni Muslims consider it the second most authentic hadith collection, after Sahih Bukhari. However, it is important to realize that Imam Muslim never claimed to collect all authentic traditions as his goal was to collect only traditions that all Muslims should agree on about accuracy. It is complete book 2 and book 3 of sahih muslim to guide the readers towards the path of sunnah

**Oases and Globalization** - Emilie Lavie 2017-03-25

This book is a reference work about the study of oases in the context of globalization. It is based on selected papers presented at the international colloquium entitled Oases in the Globalization, Ruptures and Continuities in Paris (December 16-17th, 2013). The main issue was to understand how oases have been excluded from or included into the process of globalization. In this context, the present book proposes firstly a discussion about the definition(s) of oasis and secondly several case studies analysing socio-spatial mutations in the oasis structure. The third part deals with the compelling globalization at different spatial scales, using two entries: the water management and local impacts of external control.

Demoniality - Ludovico Maria Sinistrari 2019-06-28

This 17th century treatise on demonology, written by the respected theologian, Catholic priest, and exorcist, Rev. Father Sinistrari, examines a particular class of spirits known as the incubus and succubus. These minor demons crave sex and often attack their victims while they sleep. Though incubus and succubus are considered less dangerous than possessing demons, they can be relentless in pursuit of their desire and grow violent when resisted. Demoniality advances novel theories about occult biology, claiming demons can reanimate corpses to have sex and impregnate victims with demonic seed to produce offspring who are "tall, hardy, bold and wicked." An expert on witchcraft and sexual sin, Rev. Father Sinistrari included sections on related phenomena, including: bestiality, necrophilia, demonic pacts, witchcraft, witches' marks, devil worship and magical beings such as fauns, centaurs and elves. Father Sinistrari was a learned Franciscan Friar who used deductive reasoning to examine the characteristics of the spirit world. For example, do demons have mass? He concludes they do, but determines they are porous-allowing for their supernatural feats of passing through objects and appearing from nowhere. He also classified the demonic spirits by their actions, explaining that some seek out corrupt pacts with witches or wizards, while others are parasitic and indiscriminately attack the innocent. As a primer on demonic behavior, Demoniality is extremely detailed. Father Sinistrari was schooled in the sciences of the time, including herbalism, alchemy, elements, humors and the symptoms of witchcraft-even serving as an advisor to the notorious Inquisition. Because of this, he focuses on diagnoses and remedies to expel the pests, using his alchemical knowledge to devise herbal formulas for countering a demon's specific elemental nature. These elaborate herbal recipes are similar to the elixirs found in a magician's grimoire or a witch's book of shadows. The title of the book is a play on the word bestiality, which conveys Father Sinistrari's belief that copulating with demons is, similarly, a sinful act and a crime. But while incubus and succubus are spirits doing evil deeds, Father Sinistrari is not dismissive of their salvation. He advances the theological argument that these minor demons have souls, and can be saved from damnation. He distinguishes them from the more vulgar type that tend to possess humans in terrifying displays. As proof, he shows how this latter class of demon greatly fears religious relics, while incubus and succubus do not object when in their presence: clear evidence, according to Sinistrari, that they are not damned, but are likely in limbo. As a prominent exorcist of his time, Father Sinistrari encountered victims of demonic activity on a regular basis. Many of the afflicted were, ironically, nuns and priests in the service of God or people under their care. In one story, a young maiden of noble birth is romantically pursued by a spirit that, out of frustration with her chastity, finally attacks her. Another story involves a nun who disappeared to her cell where two voices are heard along with groaning and the creaking of her bed. A rival nun drilled a hole through the partition and saw an attractive young man lying with her sister who mysteriously disappeared when the two were confronted. References to demonic attack were carved into stone four thousand years ago long before Jesus Christ, the greatest exorcist of them all, walked the earth. As Christianity took hold, encounters with these entities were often laid out in moral terms. Father Sinistrari took a different approach: applying reason to understand this curious phenomenon along with theology, history and science. The result is this interesting treatise.

**Nature Unbound** - Dan Brockington 2012-07-26

This groundbreaking volume is the first comprehensive, critical examination of the rise of protected areas and their current social and economic position in our world. It examines the social impacts of protected areas, the conflicts that surround them, the alternatives to them and the conceptual categories they impose. The book explores key debates on devolution, participation and democracy; the role and uniqueness of indigenous peoples and other local communities; institutions and resource management; hegemony, myth and symbolic power in conservation success stories; tourism, poverty and conservation; and the transformation of social and material relations which community conservation entails. For conservation practitioners and protected area professionals not accustomed to criticisms of their work, or students new to this complex field, the book will provide an understanding of the history and current state of affairs in the rise of protected areas. It introduces the concepts, theories and writers on which critiques of conservation have been built, and provides the means by which practitioners can understand problems with which they are wrestling. For advanced researchers the book will present a critique of the current debates on protected areas and provide a host of jumping off points for an array of research avenues

**The Flanders Road** - Claude Simon 2022-07-12

By the winner of the 1985 Nobel Prize in Literature, a riveting, stylistically audacious modernist epic about the French cavalry's bloody face-off against German Panzer tanks during WWII. On a sunny day in May 1940, the French army sent out the cavalry against the invading German army's panzer tanks. Unsurprisingly, the French were routed. Twenty-six-year-old Claude Simon was among the French forces. As they retreated, he saw his captain shot off his horse by a German sniper. This is the primal scene to which Simon returns repeatedly in his fiction and nowhere so powerfully as in his most famous novel *The Flanders Road*. Here Simon's own memories overlap with those of his central character, Georges, whose captain, a distant relative, dies a similar death. Georges reviews the circumstances and sense—or senselessness—of that death, first in the company of a fellow prisoner in a POW camp and then some years later in the course of an ever more erotically charged visit to the captain's widow, Corinne. As he does, other stories emerge: Corinne's prewar affair with the jockey Iglésia, who would become the captain's orderly; the possible suicide of an eighteenth-century ancestor, whose grim portrait loomed large in Georges's childhood home; Georges's learned father, whose books are no help against barbarism. The great question throughout, the question that must be urgently asked even as it remains unanswerable, is whether fiction can confront and respond to the trauma of history.

**Modern Art** - J.-K. Huysmans 2020-04-20

First published in 1883, but never before translated into English, this collection of J.-K. Huysmans' art criticism reveals the author of *Against Nature* to be as combative in his aesthetic opinions as he was in his literary ones. At a time when the Impressionists were still being ridiculed, or worse still ignored, Huysmans defiantly proclaimed Degas to be the best painter in France. He filled his pages with analyses of the works of artists whose genius and popularity have been confirmed by time: Gustave Caillebotte, Paul Gauguin, Mary Cassatt, Edouard Manet, Berthe Morisot, Odilon Redon and Gustave Moreau. Huysmans intersperses his reviews of these independent artists with those of the annual Official Salon, whose conventional and dryly academic works he lambasts with his customary gusto and invective. This is the first complete translation of *L'Art moderne*, and includes 200 black and white illustrations, notes and a glossary of artists. 'Huysmans reviewed the Salons of 1879-82 and the Independent Exhibitions of 1880-82 at considerable length. His articles, collected as *L'Art moderne* (1883), have never before been translated into English, probably because he is the least known of the writer-critics, and his French is often not straightforward. Robert Baldick, biographer of Huysmans (1955) described his style as 'one of the strangest literary idioms in existence'. Brendan King, who has already translated most of Huysmans's fiction, has produced an excellent version. Rarely can it have been such fun to read translated denunciations of so many forgotten French pictures. The edition also includes scores of small black and white illustrations, which can easily be Googled into colour.' Julian Barnes in *The London Review of Books*

**Congo's Environmental Paradox** - Theodore Trefon 2016-05-15

The Democratic Republic of Congo has the natural resources the world needs - it is crucial to satisfying our craving for the latest high-tech gadgets; the Inga Dam could light up all of Africa; while Congo's farmers could feed a billion people. These realities are redefining the country's strategic contribution to a globalized world. A resource paradise for some, the DRC is an environmental nightmare for others. *Congo's Environmental Paradox* analyses the new dynamics in the country's forest, mineral, land, water and oil sectors, revealing the interactions between these sectors. Connecting the dots, it shows how we need to fundamentally rethink power, politics and resource management in Congo today.

**Nobu** - Nobu Matsuhisa 2019-09-24

"In this outstanding memoir, chef and restaurateur Matsuhisa...shares

lessons in humility, gratitude, and empathy that will stick with readers long after they've finished the final chapter." —Publishers Weekly (starred review) "Inspiration by example" (Associated Press) from the acclaimed celebrity chef and international restaurateur, Nobu, as he divulges both his dramatic life story and reflects on the philosophy and passion that has made him one of the world's most widely respected Japanese fusion culinary artists. As one of the world's most widely acclaimed restaurateurs, Nobu's influence on food and hospitality can be found at the highest levels of haute-cuisine to the food trucks you frequent during the work week—this is the Nobu that the public knows. But now, we are finally introduced to the private Nobu: the man who failed three times before starting the restaurant that would grow into an empire; the man who credits the love and support of his family as the only thing keeping him from committing suicide when his first restaurant burned down; and the man who values the busboy who makes sure each glass is crystal clear as highly as the chef who slices the fish for Omakase perfectly. What makes Nobu special, and what made him famous, is the spirit of what exists on these pages. He has the traditional Japanese perspective that there is great pride to be found in every element of doing a job well—no matter how humble that job is. Furthermore, he shows us repeatedly that success is as much about perseverance in the face of adversity as it is about innate talent. Not just for serious foodies, this "insightful peek into the mind of one of the world's most successful restaurateurs" (Library Journal) is perfect for fans of Marie Kondo's *The Life-Changing Magic of Tidying Up* and Danny Meyer's *Setting the Table*. Nobu's writing does what he does best—it marries the philosophies of East and West to create something entirely new and remarkable.

**Trust No Aunty** - Maria Qamar 2017-08

Based on her popular Instagram @Hatecopy and her experience in a South Asian immigrant family, artist Maria Qamar has created a humorous, illustrated "survival guide" to deal with overbearing "Aunties," whether they're family members, annoying neighbors, or just some random ladies throwing black magic your way. We've all experienced interference from our Aunties—they are at family parties and friendly get-togethers, finding ways to make your life difficult, trying to get you to marry their sons, and telling you to lose weight while simultaneously feeding you a second dinner—and it has stunted our social growth and embarrassed us in front of our friends and cool cousins for years. This tongue-in-cheek guide is full of advice designed to help you manage Aunty meddling and encourages you to pursue your passions—from someone who has been through it all. Qamar confesses to throwing sweatshirts over crop-tops to get out of the house without being questioned, hiding her boyfriend in a closet, and enduring overbearing parents endlessly pressuring her to become a doctor, lawyer, or engineer. Holding onto your cultural identity is tough. Always interfering Aunties make it even harder. But ultimately, Aunties keep our lives interesting. As an Aunty-survivor and a woman who has lived the cross-cultural experience, Qamar defied the advice of her aunties almost every step of the way, and she is here to remind you: Trust No Aunty.

**Spectacles of Death in Ancient Rome** - Donald G. Kyle 2012-11-12

The elaborate and inventive slaughter of humans and animals in the arena fed an insatiable desire for violent spectacle among the Roman people. Donald G. Kyle combines the words of ancient authors with current scholarly research and cross-cultural perspectives, as he explores \* the origins and historical development of the games \* who the victims were and why they were chosen \* how the Romans disposed of the thousands of resulting corpses \* the complex religious and ritual aspects of institutionalised violence \* the particularly savage treatment given to defiant Christians. This lively and original work provides compelling, sometimes controversial, perspectives on the bloody entertainments of ancient Rome, which continue to fascinate us to this day.

*The Vatarad Sisters* - Joris-Karl Huysmans 2012

"The Vatarad Sisters brought Huysmans to the notice of the public and revealed him as a man who could paint word-pictures which put earlier practitioners like Gautier and Edmond de Goncourt in the shade...The novel is a story of two working-class sisters, but the main protagonist is Paris, suburban Paris, the Paris of railway stations, cheap restaurants and café-concerts...and the passages that describe the music-halls and crowds of the Avenue de Maine and the Boulevard Saint Michel, or the railway yard seen from the back window of the sisters' bedroom, have a visual immediacy...a kind of energy, a force of personality, which are utterly unusual in Huysmans' work..."—Anita Brookner in *The Genius of the Future*

**Stranded** - Joris-Karl Huysmans 2010

Jacques' waking reveries and daydreams are balanced by a succession of dreams and nightmares that explore the seemingly irrational, often grotesque, world of unconscious desire, producing a series of images that challenges anything to be found in the fantasies of 'Against Nature', or the Satanic obsessions of 'La-Bas'."
