On Results of the Reform in Ethiopia's Language and Education Policies - Catherine Griefenow-Mewis 2009

This publication reflects the results of the Ethiopian education reform as well as the exceptional efforts that multiethnic Ethiopia undertakes in order to cope with the challenges arising from the population explosion. More than 55 per cent of the 77 million Ethiopians are under the age of 18 years. The great social and political changes started in Ethiopia at the beginning of the 1990s have resulted in the substitution of the educational system based on Amharic and English by one which uses a multilingual approach. According to the Ministry of Education 22 out of the 84 languages spoken in Ethiopia are now used as media of instruction in primary schools. The book presents the lectures delivered at the workshop "On the Results of the Reform in Ethiopia's Language and Education Policy" held at Addis Ababa University in April 2006 by Ethiopian education experts and a German research team. Their contribution has facilitated a subsumption into the historical context and has given insight into the analyses of the use of 8 Ethiopian languages in primary schools in different regions of the country.

Ethiopia and the Red Sea - Mordechai Abir 2013-10-28

First Published in 1980. An important waterway for international trade, the Red Sea is about 2000 kms. long and generally between 200-300 kms. wide. In its southern part the Arabian peninsula approaches the Horn of Africa to a distance of about 25 kms. This book is partly the outcome of research for the chapter called 'Ethiopia and the Horn of Africa' (from the middle of the sixteenth century until the middle of the eighteenth century), published in the fourth volume of the Cambridge History of Africa. The extensive research conducted for several summers between 1967 and 1971 for a forty-page chapter resulted in substantial material in order to create this volume.

Empowering Adolescent Girls in Developing Countries - Caroline Harper 2018-02-13

The Open Access version of this book, available at <http://www.tandfebooks.com/doi/view/10.4324/9781315180250>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license. Adolescence is a pivotal time in a girl's life. The development of educational, physical, psychosocial, familial, political and economic capabilities enable girls to reach their full potential and contribute to the wellbeing of their families and society. However, progress is still significantly constrained by discriminatory gender norms and the related attitudes and practices which restrict girls' horizons, restrain their ambition and, if unfettered, allow exploitation and abuse. *Empowering Adolescent Girls in Developing Countries* explores the detrimental impact of discriminatory gender norms on adolescent girls' lives across very different contexts. Grounded in four years of in-depth research in Ethiopia, Nepal, Uganda and Viet Nam, the book adopts a holistic approach, recognising the inter-related nature of capabilities and the importance of local context. By exploring the theory of gendered norm change, contextualising and examining socialisation processes, the book identifies the patriarchal vested interests in power, authority and moral privilege, which combine in attempts to restrict and control girls' lives. Throughout the book, *Empowering Adolescent Girls in Developing Countries* demonstrates how efforts to develop more egalitarian gender norms can enable disadvantaged adolescent girls to change the course of their lives and contribute to societal change. Accessible and informative, the book is perfect for policy makers, think tanks, NGOs, activists, academics and students of gender and development studies.

Content Area Reading and Literacy - Donna E. Alvermann 2012

"Students and teachers have long appreciated the scope of topics and examples, the research-based information, and the accessible writing style presented by these three trusted authorities in the field of adolescent literacy. This seventh edition includes up-to-date information to help teachers address the literacy needs of English learners in their classrooms and today's culturally diverse student population, while also addressing new frameworks for reading and writing instruction, including a sociocultural perspective on teaching and learning and insights from the New Literacies. As in previous editions, this seventh edition is based on the assumption that, rather than just a mere add-on, "content literacy is integral to every discipline and special subject area, to the teachable moments that make less stellar ones tolerable, and, most important, to each student's motivation and engagement with learning." The ideas the authors present are backed by research, tested in real classrooms, and designed to help teachers apply what is useful to their own particular disciplines. The ideas they share—both new and from"—Publisher.
