In Mortal Combat - John Toland 2016-05-31

A history of the Korean War with soldier's-eye views from both sides, by the Pulitzer Prize-winning author of *The Rising Sun* and *Infamy*. Pulitzer Prize-winning author John Toland reports on the Korean War in a revolutionary way in this thoroughly researched and riveting book.

Toland pored over military archives and was the first person to gain access to previously undisclosed Chinese records, which allowed him to investigate Chairman Mao's direct involvement in the conflict. Toland supplements his captivating history with in-depth interviews with more than two hundred American soldiers, as well as North Korean, South Korean, and Chinese combatants, plus dozens of poignant photographs,

bringing those who fought to vivid life and honoring the memory of those lost. *In Mortal Combat* is comprehensive in its discussion of events deemed controversial, such as American brutality against Korean civilians and allegations of American use of biological warfare. Toland tells the dramatic account of the Korean War from start to finish, from the appalling experience of its POWs to Mao's prediction of MacArthur's Inchon invasion. Toland's account of the "forgotten war" is a must-read for any history aficionado.

I Loved a Rogue - Katharine Ashe 2015-02-24

In the third in Katharine Ashe's *Prince Catchers* series, the eldest of three very different sisters must fulfill a prophecy to discover their birthright. But if Eleanor is destined to marry a prince, why can't she resist the scoundrel who seduced her? She can pour tea, manage a household, and sew a modest gown. In short, Eleanor Caulfield is the perfect vicar's daughter. Yet there was a time when she'd risked everything for a black-eyed gypsy who left her brokenhearted. Now he stands before her—dark, virile, and ready to escort her on a journey to find the truth about her heritage. Leaving eleven years ago should have given Taliesin freedom. Instead he's returned to Eleanor, determined to have her all to himself, tempting her with kisses and promising her a passion she's so long denied herself. But if he was infatuated before, he's utterly unprepared for what will happen when Eleanor decides to

abandon convention—and truly live . . .

The Whys of a Philosophical Scrivener - Martin Gardner 1999-08-21

The Whys of a Philosophical Scrivener showcases Martin Gardner as the consummate philosopher, thinker, and great mathematician that he is. Exploring issues that range from faith to prayer to evil to immortality, and far beyond, Gardner challenges the discerning reader with fundamental questions of classical philosophy and life's greater meanings. Recalling such philosophers as Wittgenstein and Arendt, The Whys of Philosophical Scrivener embodies Martin Gardner's unceasing interest and joy in the impenetrable mysteries of life.

Milk Production and Processing - C. Ibraheem Kutty 2014-01-01

The book covers various aspects of dairying and milk products such as dairy farm establishment, management, production and utilisation of various dairy products. Information has been included on various aspects of dairy farming starting with selection and purchase of dairy cattle, their care and management, with respect to housing, feeding, breeding and health care during various physiological states such as growth, pregnancy and lactation and during different seasons. Details of health care management along with common diseases have been covered with all information required for educated farmers and technicians working in these areas. Various means for consistent improvement of the stock has also been included. Production of clean milk, its procurement, processing and distribution has been covered with more emphasis on common processing technologies such as pasteurisation and sterilisation. Different forms of liquid milk available in the market has been described along with its standards and other specifications for the knowledge of common man and technicians. Manufacturing methods of milk products have been included with appropriate flow chart wherever required and various categories of milk products have been covered in detail under different chapters under milk products. This book has been prepared with emphasis on second year syllabus of Vocational higher secondary course on milk products and dairying and considering the lack of a suitable textbook for this subject. Hence the book is expected to fill the gap of a textbook for the above said and similar courses. Also the book

may be accepted as a textbook/manual for educated farmers, other teaching and training programmes covering similar syllabus like that of dairy farm instructors and as a handbook for Veterinary Students and Dairy Extension Officers. With these introductory notes, we presume that the book will satisfy its readers' requirements and form a valuable textbook/reference book for all those concerned with dairy animal production and utilisation of their products ultimately benefiting the farming community.

La prisión y las instituciones punitivas en la investigación histórica - Pedro Oliver Olmo 2014-09-23

La Historia Social de las Instituciones Punitivas está necesitada en España de encuentro y debate, de confrontación y colaboración entre investigadores e investigadoras. Solo así logrará hacerse visible e inteligible como tendencia historiográfica y sobre todo como apuesta teórico-metodológica, porque de hecho ya es más que creíble como práctica historiográfica. Aquí, en este libro, junto a los logros también se perfilan las carencias y los retos más acuciantes. Lejos de buscar una autonomía extemporánea, la Historia Social de las Instituciones Punitivas quiere buscar su propia viabilidad a base de intersecciones y buenas mezclas. Esos objetivos se planteaba el Grupo de Estudio sobre la Historia de la Prisión y las Instituciones Punitivas (GEHPIP) —un equipo interuniversitario y con sede en la Universidad de Castilla-La Mancha (UCLM)— al organizar lo que de forma homónima decidió titular I Congreso Internacional sobre Historia de la Prisión y las Instituciones Punitivas, celebrado en Ciudad Real entre el 10 y el 12 de abril de 2013. El libro electrónico que aquí se presenta es una buena muestra de lo que allí se comunicó y discutió. Social History of Punitive Institutions in Spain needs meetings and discussions, comparison and collaboration between researchers. Only then it will become visible and intelligible as a historiographical trend and, above all, as a theoretical-methodological hope, because in fact, now it is more than conceivable as a historiographical practice. Here in this book are outlined, along with the achievements, the shortcomings and the most pressing challenges. Far from seeking an extemporaneous autonomy, Social History of Punitive

Institutions wants to try to find its own feasibility based on intersections and good mixings. Those objectives were considered by the Study Group about History of Prison and Punitive Institutions (Grupo de Estudio sobre la Historia de la Prisión y las Instituciones Punitivas, GEHPIP) -an interuniversity team and with central office at Universidad de Castilla-La Mancha (UCLM)- when organising what it decided to name in an homonymous way 1st International Congress on History of Prison and Punitive Institutions (I Congreso Internacional sobre Historia de la Prisión y las Instituciones Punitivas), held in Ciudad Real (Spain) from 10 to 12 April 2013. The electronic book here presented is a good example of what it was told and discussed there.

Cosmos - Carl Sagan 2013-12-10

RETURNING TO TELEVISION AS AN ALL-NEW MINISERIES ON FOX
Cosmos is one of the bestselling science books of all time. In clear-eyed prose, Sagan reveals a jewel-like blue world inhabited by a life form that is just beginning to discover its own identity and to venture into the vast ocean of space. Featuring a new Introduction by Sagan's collaborator, Ann Druyan, full color illustrations, and a new Foreword by astrophysicist Neil deGrasse Tyson, Cosmos retraces the fourteen billion years of cosmic evolution that have transformed matter into consciousness, exploring such topics as the origin of life, the human brain, Egyptian hieroglyphics, spacecraft missions, the death of the Sun, the evolution of galaxies, and the forces and individuals who helped to shape modern science. Praise for Cosmos "Magnificent . . . With a lyrical literary style, and a range that touches almost all aspects of human knowledge, Cosmos often seems too good to be true."—The Plain Dealer "Sagan is an astronomer with one eye on the stars, another on history, and a third—his mind's—on the human condition."—Newsday "Brilliant in its scope and provocative in its suggestions . . . shimmers with a sense of wonder."—The Miami Herald "Sagan dazzles the mind with the miracle of our survival, framed by the stately galaxies of space."—Cosmopolitan "Enticing . . . iridescent . . . imaginatively illustrated."—The New York Times Book Review

Intermediate C Programming - Yung-Hsiang Lu 2015-06-17

Teach Your Students How to Program Well Intermediate C Programming provides a stepping-stone for intermediate-level students to go from writing short programs to writing real programs well. It shows students

how to identify and eliminate bugs, write clean code, share code with others, and use standard Linux-based tools, such as ddd and valgrind. The text covers numerous concepts and tools that will help your students write better programs. It enhances their programming skills by explaining programming concepts and comparing common mistakes with correct programs. It also discusses how to use debuggers and the strategies for debugging as well as studies the connection between programming and discrete mathematics.

News from Nowhere - Edward Jay Epstein 1973

The Complete Saki - Saki 1998-05-01

The complete works of one of England's greatest Edwardian writers Saki is perhaps the most graceful spokesman for England's 'Golden Afternoon' - the slow and peaceful years before the First World War. Although, like so many of his generation, he died tragically young, in action on the Western Front, his reputation as a writer continued to grow long after his death. His work is humorous, satiric, supernatural, and macabre, highly individual, full of eccentric wit and unconventional situations. With his great gift as a social satirist of his contemporary upper-class Edwardian world, Saki is one of the few undisputed English masters of

the short story and one of the great writers of a bygone era. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Kistefos-Museet Sculpture Park - 2020-01-21

Kistefos, Norway's preeminent home for contemporary sculpture since the late nineteen-nineties, offers globally-recognized artworks in a spectacular and atmospheric rural setting. The museum's principal purpose is to preserve and develop what is today a technical and industrial monument of national importance. This book is the museum's first major publication about its collection and not only documents works by artists such as Lynda Benglis, Tony Cragg, and Olafur Eliasson, among many others in the collection, but also marks the opening of a new building designed by Bjarke Ingels Group (BIG) architects. It offers

extensive written and visual material on the beautiful and innovative "twisted bridge" exhibition space that will open to the public in the summer of 2019. The book provides a comprehensive understanding of Kistefos's history, collection and architecture through essays that are accompanied by specially-commissioned images by renowned photographer H el ene Binet.

Hillary (and Bill). - Victor Thorn 2008-01-01

110: Is the Clinton 'Body Count' Real? This question has plagued the former first couple for nearly 20 years, and has become such an integral part of popular culture that Hillary has been forced to sarcastically refer to it in press conferences. ("Some people even say we're involved in drug dealing and murder.") Still, is the "Clinton Body Count" real, or simply an urban legend-a product of far-flung conspiracy theory? In Part Three of the Clinton trilogy-The Murder Volume-an overwhelming amount of evidence is provided proving that the 110+ people who've died under mysterious circumstances-all tied in some way, shape, or form to the Clintons-far surpasses any chance of it merely being coincidence. The odds of such a phenomenon occurring naturally are, in fact, so miniscule that alternative explanations become necessary. Other Topics Covered: True Motive for Waco Holocaust -and the Person Who Ordered the Massacre-Revealed! Proof Positive Vince Foster Was Murdered. Now See the Killer Revealed for the First Time! Was Ron Brown Getting Ready to Spill the Beans About Bill & Hillary's Nefarious Activities? Was Bill Being Blackmailed And Was Monica Lewinsky Hillary's Unwitting Pawn?

Modern Heuristic Search Methods - V. J. Rayward-Smith 1996-12-23
Including contributions from leading experts in the field, this book covers applications and developments of heuristic search methods for solving complex optimization problems. The book covers various local search strategies including genetic algorithms, simulated annealing, tabu search and hybrids thereof. These methods have proved extraordinarily successful by solving some of the most difficult, real-world problems. At the interface between Artificial Intelligence and Operational Research, research in this exciting area is progressing apace spurred on by the needs of industry and commerce. The introductory chapter provides a

clear overview of the basic techniques and useful pointers to further reading and to current research. The second section of the book covers some of the most recent and exciting developments of the basic techniques, with suggestions not only for extending and improving these but also for hybridizing and incorporating automatic adaption. The third section contains a number of case studies, surveys and comparative studies which span a wide range of application areas ranging from the classic Steiner tree problem to more practical problems arising in telecommunications and data analysis. The coverage of the latest research and the illustrative case studies will ensure that the book is invaluable for researchers and professionals with an interest in heuristic search methods.

Starspeak - Dawn Henderson 2012-12-01

Messages of ascension, love, contact and more in the words of our star brothers and sisters. We are moving through a time of massive change, unprecedented in recorded memory, a time in which life as we know it is being turned upside down. But we do not have to travel through this often confusing and disorientating process alone, for from across the galaxies our star brothers and sisters have gathered to help us through this transformation. Many people on Earth are now being contacted by these loving beings, receiving their words of guidance, encouragement and reassurance to share with those who as yet do not hear them. This book contains some of these messages, received by the author from the star beings of light, messages that are filled with the love and wisdom of the universe. Dawn Henderson is an author, channel and spiritual teacher who lives in the ancient mystical landscape of Wiltshire, England.

Estimating Market Value and Establishing Market Rent at Small Airports
- Aviation Management Consulting Group, Inc 2020

"Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP Research Report 213 provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and

appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and this report reviews best practices in property development."--Foreword.

SAP Nation - Deal Architect 2014-12-05

From its humble beginnings in Germany, SAP skyrocketed to become a global powerhouse and the technology backbone for tens of thousands of enterprises. The economy around it grew even faster, and "SAP Nation" now approaches the GDP of Ireland in size. This book documents both trajectories, based on decades of research and interviews of hundreds of customers, market analysts and competitors. SAP's influence has declined in the last decade, as enterprises invest in cloud, social, analytical and mobile technologies and in custom development of "systems of advantage" in their products, channels and business models. Yet, shockingly, customer spending in SAP Nation remains stubbornly high. The model in the book estimates post-recession investment at more than one trillion dollars (yes). This book brings out loudly the voice of SAP customers as they cope with this runaway economy. Twenty-five case studies showcase a spectrum of strategies - some are "ring fencing" SAP with Workday, others are switching maintenance to Rimini Street, yet others are in-sourcing, while still others are evaluating newer SAP products like HANA and acquisitions like Concur. Part root cause analysis and part strategy manual, this book is a must-read for anyone with interest in SAP - as customer, employee, partner, investor or competitor. It is a fast-paced look at decades of what SAP has done well, and what it could have done better. Executives everywhere, even those in non-SAP settings, will benefit from the strategies described in the book to migrate inefficient back-office IT dollars to front-office innovation.
