**The Leader in Me** - Stephen R. Covey 2012-12-11

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B. Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Mennonite Girls Can Cook - Lovella Schellenberg 2011-04-15

Mennonite Girls Can Cook is a blog about recipes, hospitality, relationships, encouragement and helping the hungry—and now it's a book, too! Like the blog, Mennonite Girls Can Cook—the book—is about more than just recipes. It's about hospitality, versus entertaining; about blessing, versus impressing. It's about taking God's Bounty and co-creating the goodness from God's creation into something that can bless family and friends, and help sustain health and energy. "No matter which way you look at it, wonderful things happen when people are given the opportunity to gather around the table—a chance to nurture and build relationships, fellowship and encourage one another and create a place of refuge for those who have had a stressful day."—Charlotte Penner, Mennonite Girls Can Cook

**Self-directed Groupwork** - Audrey Mullender 1991-01-01

No Text This standard text has stood the test of time, and is still in demand, 15 years after its first publication. It shows what works to help people identify what is wrong in their lives and how they can bring about change. Social and community workers, teachers, youth workers, community nurses, and workers in faith-related settings helped develop the approach and will be keenly interested in the ideas contained here. ". . . a most important book which should become required reading for intended and experienced groupworkers alike. . . . it describes an approach to groupwork developed and refined in practice and challenges much traditional thinking . . . this practice paradigm is firmly rooted in an analysis of oppression, power and change and in clearly articulated values which inform a commitment to empowerment, anti-oppressive methods of work and social change. **Beyond Memory** - Max Mojapelo 2008

"South Africa possesses one of the richest popular music traditions in the world - from marabi to mbaqanga, from boeremusiek to bubblegum, from kwela to kwaito. Yet the risk that future generations of South Africans will not know their musical roots is very real. Of all the recordings made here since the 1930s, thousands have been lost for ever, for the powers-that-be never deemed them worthy of preservation. If one peruses the books that exist on South African popular music, one still finds that their authors have on occasion jumped to conclusions that were not as foregone as they had assumed. Yet the fault lies not with them, rather in the fact that there has been precious little documentation in South Africa of who played what, or who recorded what, with whom, and when. This is true of all music-making in this country, though it is most striking in the music of the black communities. Beyond memory: recording the history, moments and memories of South African music is an invaluable publication because it offers a first-hand account of the South African music scene of the past decades from the pen of Max Thamagana Mojapelo, who was situated in the very thick of things, thanks to his job as a DJ at the South African Broadcasting Corporation. This book -astonishing for the breadth of its coverage - is based on his diaries, on interviews he conducted and on numerous other sources, and we find in it not only the well-known names of recent South African music but a countless host of others whose contribution must be recorded if we and future generations are to gain an accurate picture of South African music history of the late 20th and early 21st centuries"-- Publisher's description.

Lost Crops of Africa - National Research Council 2008-01-25

This book is the third in a series evaluating underexploited African plant resources that could help broaden and secure Africa's food supply. The volume describes 24 little-known indigenous African cultivated and wild fruits that have potential as food- and cash-crops but are typically overlooked by scientists, policymakers, and the world at large. The book assesses the potential of each fruit to help overcome malnutrition, boost food security, foster rural development, and create sustainable landcare in Africa. Each fruit is also described in a separate chapter, based on information provided and assessed by experts throughout the world. Volume I describes African grains and Volume II African vegetables.

Historical Dictionary of the Zulu Wars - John Laband 2009-05-18

Between 1838 and 1888 the recently formed Zulu kingdom in southeastern Africa was directly challenged by the incursion of Boer pioneers aggressively seeking new lands on which to set up their independent republics, by English-speaking traders and hunters establishing their neighboring colony, and by imperial Britain intervening in Zulu affairs to safeguard Britain's position as the paramount power in southern Africa. As a result, the Zulu fought to resist Boer invasion in 1838 and British invasion in 1879. The internal strains these wars caused to the fabric of Zulu society resulted in civil wars in 1840, 1856, and 1882-1884, and Zululand itself was repeatedly partitioned between the Boers and British. In 1888, the old order in Zululand attempted a final, unsuccessful uprising against recently imposed British rule. This tangled web of invasions, civil wars, and rebellion is complex. The Historical Dictionary of the Zulu Wars unravels and elucidates Zulu history during the 50 years between the initial settler threat to the kingdom and its final dismemberment and absorption into the colonial order. A chronology, an introductory essay, a bibliography, maps, photos, and over 900 cross-referenced dictionary entries that cover the military, politics, society, economics, culture, and key players during the Zulu Wars make this an important reference for everyone from high school students to academics.

*Traditional Buildings* - Allen Noble 2009-09-18

Based on a lifelong professional and personal interest, "Traditional Buildings" presents a unique survey of vernacular architecture across the globe. The reader is taken on a fascinating tour of traditional building around the world, which includes the loess cave homes of central China, the stilt houses on the shores of Dahomey, the housebarns of Europe and North America, the wind towers of Iran, the Bohio houses of the Arawak Indians of the Caribbean, and much more. Professor's Noble's extensive travels have allowed him to examine many of the building at close quarters and the richly illustrated text includes photographs from his

personal collection. With its comprehensive and detailed bibliography, the work will be welcomed by experts and non-specialists alike.

*Walking with Giants* - Sindiso Mfenyana 2017

The autobiography has as its primary focus political history, in particular the history of the ANC in South Africa and in exile. The author records in a refreshingly straightforward way how he and his peers experienced life in South Africa in the 1950's. His politicization in Cradock through such events as the 1952 Defiance Campaign and later at the University of Fort Hare give the background for his recruitment into the ANC underground. A true non-racialist with a broad view of the world, he reflects a generation of South Africans who were educated in the East European socialist countries. He was widely read and knowledgeable about global affairs; he understood the politics of most African countries and hoped to contribute to the building of a new South Africa.

Study and Master Life Sciences Grade 11 CAPS Study Guide - Gonasagaren S. Pillay 2014-08-21

Flower Moon - Gina Linko 2018-01-02

Tally Jo and Tempest Trimble are mirror twins, so alike they were almost born the same person. Inseparable, but more than that. Connected. That is, until this summer. The twins are traveling with Pa Charlie's carnival just like always, but there's a new distance between them. Tempest is so caught up in her own ideas, she doesn't seem to have space left in her life for Tally. And, more than that, Tally's started to notice there's something between them. Something real, growing with the phases of the moon, pushing them apart. Sparking, sputtering, wild. Dangerous. With the full moon approaching, Tally knows it's up to her to find out what's going on—and to beat it. If she can't, she might just lose her sister. Forever. For fans of Savvy and A Snicker of Magic, this is a spellbinding story of friendship and family—a poignant ode to both what's worth holding on to and what we have to let go.

African Fractals - Ron Eglash 1999

Fractals are characterized by the repetition of similar patterns at ever-diminishing scales. Fractal geometry has emerged as one of the most exciting frontiers on the border between mathematics and information technology and can be seen in many of the swirling patterns produced by computer graphics. It has become a new tool for modeling in biology, geology, and other natural sciences. Anthropologists have observed that the patterns produced in different cultures can be characterized by specific design themes. In Europe and America, we often see cities laid out in a grid pattern of straight streets and right-angle corners. In contrast, traditional African settlements tend to use fractal structures--circles of circles of circular dwellings, rectangular walls enclosing ever-smaller rectangles, and streets in which broad avenues branch down to tiny footpaths with striking geometric repetition. These indigenous fractals are not limited to architecture; their recursive patterns echo throughout many disparate African designs and knowledge systems. Drawing on interviews with African designers, artists, and scientists, Ron Eglash investigates fractals in African architecture, traditional hairstyling, textiles, sculpture, painting, carving, metalwork, religion, games, practical craft, quantitative techniques, and symbolic systems. He also examines the political and social implications of the existence of African fractal geometry. His book makes a unique contribution to the study of mathematics, African culture, anthropology, and computer simulations.

*Tabloid Journalism in South Africa* - Herman Wasserman 2010-05-31

Less than a decade after the advent of democracy in South Africa, tabloid newspapers have taken the country by storm. One of these papers -- the Daily Sun -- is now the largest in the country, but it has generated controversy for its perceived lack of respect for privacy, brazen sexual content, and unrestrained

truth-stretching. Herman Wasserman examines the success of tabloid journalism in South Africa at a time when global print media are in decline. He considers the social significance of the tabloids and how they play a role in integrating readers and their daily struggles with the political and social sphere of the new democracy. Wasserman shows how these papers have found an important niche in popular and civic culture largely ignored by the mainstream media and formal political channels.

**The Storm Before the Calm** - Neale Donald Walsch 2011-10-01

Something happened in early 2011 that hasn't happened in decades, perhaps centuries—and we didn't even notice it. That is, we didn't see it for what it was. Massive unrest from Tunisia to Egypt to Libya rocked the Arab world and threw the globe into political crisis. Within days, an earthquake-tsunami-nuclear calamity of terrifying proportions shocked Japan and sent the world reeling once again, even as the globe's financial markets shuddered to sustain themselves while states and nations tottered on the brink of bankruptcy—where many still linger. All of this, of course, we did notice. What we may have missed was that ancient predictions for this period of time called for exactly this: simultaneous environmental, political, and financial disasters. Were we seeing the beginning of "the end of history"—and not picking up the signal? In his prescient new book, *The Storm Before the Calm*, seven-time New York Times best-selling author Neale Donald Walsch offers a startling answer: yes. But Walsch also says there is nothing to fear, advancing an extraordinary explanation for what is happening even now all over the planet. Then—and more important—he provides a stunning prescription for healing our lives and our world through the answering of seven simple questions, inviting people everywhere to join in an earth-saving exchange at [TheGlobalConversation.com](http://TheGlobalConversation.com). Compelling and perfectly timed, *The Storm Before the Calm* answers every question that is worth asking about December, 2012 and beyond.

**Cattle Embryo Transfer Procedure** - John L. Curtis 1991

This comprehensive, step-by-step laboratory training manual brings all the elements for a successful embryo transfer program together in a simple, organized, illustrated format. For the last several decades, artificial insemination has allowed genetic progress to be achieved relatively quickly through the widespread and efficient use of frozen semen. As a result of the advancement of embryo transfer (ET) techniques, cows can produce many offspring. A more rapid genetic gain is achieved which complements an artificial insemination program.

**The Power of One** - Bryce Courtenay 2011-03-30

In 1939, hatred took root in South Africa, where the seeds of apartheid were newly sown. There a boy called Peekay was born. He spoke the wrong language—English. He was nursed by a woman of the wrong color—black. His childhood was marked by humiliation and abandonment. Yet he vowed to survive—he would become welterweight champion of the world, he would dream heroic dreams. But his dreams were nothing compared to what awaited him. For he embarked on an epic journey, where he would learn the power of words, the power to transform lives, and the mystical power that would sustain him even when it appeared that villainy would rule the world: *The Power of One*.

**Wonderfully Made** - Francis Joel Smith with Michele DuBroy 2018-10-22

From the moment Hugh Dermott O'Connor—later to become Francis Joel Smith—was conceived, God's perfect plans for his life were already in motion. Born with Treacher Collins syndrome, a rare genetic disorder that affects the formation of the face during the first trimester of pregnancy, Infant Hugh's face was so severely deformed emergency surgery was performed moments after his birth just so he could breathe. Soon thereafter, he was deemed deaf and retarded. If Infant Hugh survived, it was believed he was destined to live out his life inside the walls of an institution. Yet his medical team fought valiantly to save this helpless infant's life. The LORD had other plans. Decades earlier, his God-fearing, God-loving adopted parents—Bob and Betty Smith—were divinely brought together and prepared and placed exactly where they needed to be in order to take this struggling, suffering child who battled for survival into their home, just as they already had with ten other challenged and rejected children they adopted before him. His foster mother, Mrs. Lillian Collins—a loving Christian woman—fought to sustain him and meet his immediate needs that included his first hearing aid and hefty doses of prayer. At two and a half years old, he was seamlessly integrated into the Smith household where daily scripture readings and prayer nourished him spiritually, and relentless ongoing tube feedings nourished him physically. Above all, Bob and Betty taught their children to love the LORD no matter what and to never give into their challenges. The LORD steadily provided for their needs, and through prayer and loving guidance, every challenge was met head-on. Today, Dr. Francis Joel Smith is a PhD medical researcher in craniofacial development and is a world-renowned speaker, musician, and advocate for those who suffer from craniofacial anomalies as he has. **The African Film Industry** - UNESCO 2021-10-01

The production and distribution of film and audiovisual works is one of the most dynamic growth sectors in the world. Thanks to digital technologies, production has been growing rapidly in Africa in recent years. For the first time, a complete mapping of the film and audiovisual industry in 54 States of the African continent is available, including quantitative and qualitative data and an analysis of their strengths and weaknesses at the continental and regional levels. The report proposes strategic recommendations for the development of the film and audiovisual sectors in Africa and invites policymakers, professional organizations, firms, filmmakers and artists to implement them in a concerted manner.

**Wanda's Roses** - Pat Brisson 2020-09-08

This book about a child's simple faith is one that children will long remember—and adults will love to share. When Wanda discovers a thornbush growing in the empty lot at the corner of Fillmore and Hudson, she's quite sure it's a rosebush all ready to bloom. So she clears away the trash, checks on it every day, and brings water from the butcher shop across the street. But no roses appear. Wanda's neighbors and friends are all doubtful, but when she invites them to a tea party in her "rose garden" one day in June, they're in for a big surprise.

Apocalypse Thoughts - Kendra Griffin 2021-04-25

Seventeen-year-old Kella O'Malley is living through the apocalypse. Maybe. She's definitely running from feral cannibals. When a pandemic begins mutating humans into killers during her spring break in Georgia, Kella joins with a group of teens and twenty-somethings to carry precious CDC data north on the Appalachian Trail. With no cell phones and no clue how far the mutation spreads, their only hope is to stay ahead of the "Hyenas" and hike faster than the world can end. If Buffy the Vampire Slayer had to save the world without superpowers, it would look a lot like this. But even while suffering from epic caffeine

withdrawal, Kella is determined to protect her younger brother, keep them both from being eaten alive, and maybe even fall in love before the world definitely ends. "The end times are not what you were expecting," Kella writes in the shelter logbook along the way. "Be prepared for a lot of stomach growling. And a serious lack of condiments." "Also, take note: Cities overrun by feral human cannibals do not make for great spring break destinations. But on the bright side, it's very unlikely now that boredom is what will kill you." "Falling in love is terrifying. It ranks somewhere between murder hornets and being eaten alive by Hyenas." Apocalypse Thoughts is a young adult novel about possible love, possible zombies, and a definite shortage of coffee during the end times.

**Seeing for Yourself** - Eileen Kane 1995

This handbook provides information to help the policymaker or educator understand the research process in order to study problems and opportunities associated with the education of girls in Africa. In Africa, girls account for only 57% of the school-age population. They are more likely to drop out of school and to score lower on the examinations that determine their enrollment at postprimary levels. Research into the education of girls has the potential to improve their opportunities, and to raise the educational level of society in African countries. The purpose of research is outlined, and steps in planning a research project are defined. The discussion of the planning phase includes a discussion of sampling and sample size selection. Part III of this manual reviews the basic tools of the social science researcher. Literature reviews, techniques such as surveys and interviews, and qualitative research are described. A final section considers working with research findings and using the results. Appendixes present a sample research outline, an example data grid, and a list of some research instruments commonly used in the study of education of girls. Suggested readings are listed with each chapter. (Contains 36 figures, 50 tables, 33 illustrative boxes, and 104 references.) (SLD)
