Olympic Exclusions - Jacqueline Kennelly 2016-06-10
Olympic Games are sold to host city populations on the basis of legacy commitments that incorporate aid for the young and the poor. Yet little is known about the realities of marginalized young people living in host cities. Do they benefit from social housing and employment opportunities? Or do they fall victim to increased policing and evaporating social assistance? This book answers these questions through an original ethnographic study of young people living in the shadow of Vancouver 2010 and London 2012. Setting qualitative research alongside critical analysis of policy documents, bidding reports and media accounts, this study explores the tension between promises made and lived reality. Its eight chapters offer a rich and complex account of marginalized young people's experiences as they navigate the possibilities and contradictions of living in an Olympic host city. Their stories illustrate the limits to the promises made by Olympic bidding and organizing committees and raise important questions about the ethics of public funding for such mega-events. This book will be fascinating reading for anyone interested in the Olympics, sport and social exclusion, and sport and politics, as well as for those working in the fields of youth studies, social policy and urban studies.

LIFE Guide to Digital Photography - Joe McNally 2010-10-19
Photography has been the business and the passion of LIFE since the original weekly magazine's inception in 1936, and it continues to be the business and passion of LIFE Books and LIFE.com in the new millennium. But photography has surely changed during these many decades. The rigs and gear of old have given way-first slowly, then all at once-to sleek miracle machines that process pixels and have made the darkroom obsolete. The casual photog puts eye to lens, sets everything on auto and captures a photograph that is . . . perfectly fine. One of LIFE's master shooters-in fact, the final in the long line of distinguished LIFE staff photographers-was Joe McNally, and he has always believed that with a little preparation and care, with a dash of enthusiasm and daring added to the equation, anyone can make a better photo-anyone can turn a "keeper" into a treasure. This was true in days of yore, and it's true in the digital age. Your marvelous new camera, fresh from its box, can indeed perform splendid feats. Joe explains in this book how to take best advantage of what it was designed to do, and also when it is wise to outthink your camera or push your camera-to go for the gold, to create that indelible family memory that you will have blown up as large as the technology will allow, and that will hang on the wall forevermore. As the storied LIFE photographer and photo editor John Loengard points out in his eloquent foreword to this volume, there are cameras and there are cameras, and they've always been able to do tricks. And then there is photography.

Other guides may give you the one, two, three of producing a reasonably well exposed shot, but Joe McNally and the editors of LIFE can give you that, and then can show you how to make a picture. In a detailed, friendly, conversational, anecdotal, sometimes rollicking way, that's what they do in these pages. Prepare to click.

Indiana Notary Public Guide - Indiana Secretary of State 2019-04-06
A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.
