El contrato de colaboración entre el sector público y el sector privado: una perspectiva jurídica, politológica y emocional - Borja Colón De Carvajal Fibla 2010-05-16

La aparición del contrato de colaboración entre el sector público y el sector privado o CPP en el ordenamiento jurídico español en el año 2007 ha supuesto una revolución silenciosa en la forma de hacer de las Administraciones Públicas. Sin embargo, el inmenso potencial de este nuevo contrato no se ha visto desplegado en su totalidad por diferentes motivos que, en la mayoría de los casos, se escapan de una argumentación

racional en toda regla. Descubriremos, pues, qué se esconde detrás de una figura jurídica tan desconocida como interesante y daremos algunas razones para situar al CPP en el lugar que le corresponde.

Electrifying Mexico - Diana Montaña 2021-08-24

Many visitors to Mexico City's 1886 Electricity Exposition were amazed by their experience of the event, which included magnetic devices, electronic printers, and a banquet of light. It was both technological spectacle and political messaging, for speeches at the event lauded President Porfirio Díaz and bound such progress to his vision of a modern order. Diana J. Montaña explores the role of electricity in Mexico's economic and political evolution, as the coal-deficient country pioneered large-scale hydroelectricity and sought to face the world as a scientifically enlightened "empire of peace." She is especially concerned with electrification at the social level. Ordinary electricity users

were also agents and sites of change. Montaña documents inventions and adaptations that served local needs while fostering new ideas of time and space, body and self, the national and the foreign.

Electricity also colored issues of gender, race, and class in ways specific to Mexico. Complicating historical discourses in which Latin Americans merely use technologies developed elsewhere, *Electrifying Mexico* emphasizes a particular national culture of scientific progress and its contributions to a uniquely Mexican modernist political subjectivity.

Trinidad, universo, persona - Marlés, Emili 2014-06-04

"Trinidad, universo, persona" es, según indica el subtítulo, un ensayo de teología cristiana pensada desde la cosmovisión evolutiva actual, que creemos ya parte integrante de nuestra cultura. Es un ensayo de "antropología teológica", que da pleno sentido a la creación. Su introducción presenta la Trinidad como amor que rebosa sobre la creación. Su

parte 1 integra creación cristiana y cosmovisión actual, en el nuevo concepto teológico de "creación evolutiva". Su parte 2 trata de la vida sobrenatural de la gracia, proveniente de la "Humanación de Dios" en Cristo, pero rota por el pecado ya desde unos 200.000 años antes de Cristo. Y su parte 3 defiende, a pesar de los pronósticos científicos de muerte universal, la "nueva creación" gloriosa, anticipada ya en la resurrección corporal de Cristo. Las tres partes ven la acción divina sobre la creación, dirigida por los dos principios de Karl Rahner: la amorosa "autocomunicación de Dios" y la "potenciación de las creaturas" para "autosuperarse". Pero con Denis Edwards distinguen en esa acción divina común a la Trinidad, funciones propias de cada Persona, como la de "Atractor cósmico" para el Logos y la de "Potenciador" para el Espíritu.

La modernización administrativa: el marco jurídico de la Gestión Pública - Julián Torrado

Sancho 2016-09-05

Este libro examina los efectos de la modernización administrativa en el marco jurídico, cuyo desplazamiento o indeterminación en la gestión pública, con independencia de las políticas que se planteen, irrumpe en los principios del Estado de Derecho y pone en riesgo su función esencial en la forma liberal democrática. El análisis histórico integral del fenómeno de la modernización, esclarece las relaciones entre las dimensiones jurídica y técnica con los sectores público y privado. Esto permite reconocer el papel director del marco jurídico-administrativo en el servicio de los intereses generales, objetivo esencial de

la Administración pública.

UNA NUEVA ESTRATEGIA DE MISIÓN PARA LA IGLESIA LOCAL - Daniel Beteta 2013-04-08

La comunidad latina se encuentra atrapada en los círculos concéntricos de problemas sociales. Esto incluye la desintegración

familiar, la falta de educación, el tráfico de drogas, el alcoholismo, la falta de información sobre programas gratuitos comunitarios, y mucho más. Por temor, ignorancia, y falta de documentos legales, no buscan ayuda en los programas gratuitos establecidos, limitando sus posibilidades y abandonándose a sus limitaciones con condiciones de vida en un nivel extremo de pobreza y necesidad. El propósito de este libro es movilizar misionalmente a la iglesia local por medio de desarrollar un centro de rescate a la familia. La iglesia local está buscando medios a través de los cuales pueda llegar a la comunidad con un mensaje de esperanza. El volver a esas raíces espirituales llevará a la iglesia local a la misión y vocación cristiana de realizar su trabajo misional, preparando y capacitando a la congregación para alcanzar a su comunidad. Un libro que cambiara la historia de su iglesia local para siempre, con él, podrá tener las

Intersected Identities - Erica Segre 2007-05-01

There has always been an important visual element to the construction and questioning of national identity in post-Independence Mexico, though one that has not always been given its due, outside of the celebrated and much-studied

muralists. Ranging from the early nineteenth century to the present - from the vogue for the picturesque, illustrated periodicals and the influential writings of Altamirano to a wealth of twentieth-century graphic artists, filmmakers and photographers - this book re-examines the complex variety of ways in which that visual element has operated. In particular, it looks at the ways in which discourses concerning ethnicity and cultural hybridity have been echoed and transformed in Mexican visual culture, resulting in fields of visual discourse which are eclectic and increasingly self-reflexive.

The Spirit of Cities - Daniel A. Bell 2013-10-27

states, identity groups, and concepts like justice and freedom. *The Spirit of Cities* revives the classical idea that a city expresses its own distinctive ethos or values. In the ancient world, Athens was synonymous with democracy and Sparta represented military discipline. In this original and engaging book, Daniel Bell and Avner de-Shalit explore how this classical idea can be applied to today's cities, and they explain why philosophy and the social sciences need to rediscover the spirit of cities. Bell and de-Shalit look at nine modern cities and the prevailing ethos that distinguishes each one. The cities are Jerusalem (religion), Montreal (language), Singapore (nation building), Hong Kong (materialism), Beijing (political power), Oxford (learning), Berlin (tolerance and intolerance), Paris (romance), and New York (ambition). Bell and de-Shalit

draw upon the richly varied histories of each city, as well as novels, poems, biographies, tourist guides, architectural landmarks, and the authors' own personal reflections and insights. They show how the ethos of each city is expressed in political, cultural, and economic life, and also how pride in a city's ethos can oppose the homogenizing tendencies of globalization and curb the excesses of nationalism. *The Spirit of Cities* is unreservedly impressionistic. Combining strolling and storytelling with cutting-edge theory, the book encourages debate and opens up new avenues of inquiry in philosophy and the social sciences. It is a must-read for lovers of cities everywhere. In a new preface, Bell and de-Shalit further develop their idea of "civicism," the pride city dwellers feel for their city and its ethos over that of others.
