Education in Thailand - Gerald W. Fry 2018-11-01

This interdisciplinary book offers a critical analysis of Thai education and its evolution, providing diverse perspectives and theoretical frameworks. In the past five decades Thailand has seen impressive economic success and it is now a middle-income country that provides development assistance to poorer countries. However, educational and social development have lagged considerably behind its globally recognized economic success. This comprehensive book covers each level of education, such as higher and vocational/technical education, and such topics as internationalization, inequalities and disparities, alternative education, non-formal and informal education, multilingual education, educational policy and planning, and educational assessment. The 25 Thai and 8 international contributors to the volume include well-known academics and practitioners. Thai education involves numerous paradoxes, which are identified and explained. While Thailand has impressively expanded its educational system quantitatively with much massification, quality problems persist at all levels. As such, the final policy-oriented summary chapter suggests strategies to enable Thailand to escape "the middle income trap" and enhance the quality of its education to ensure its long-term developmental success.

The Agendas of Tibetan Refugees - Thomas Kauffmann 2015-09-01

Since the arrival of the first Tibetans in exile in 1959, a vast and continuous wave of international - especially Western - support has permitted these refugees to survive and even to flourish in their temporary places of residence. Today, these Tibetan refugees continue to attract assistance from Western governments, organizations and individuals, while other refugee populations are largely forgotten in the international agenda. This book shows and discusses how Tibetan refugees continue to attract resources, due, notably, to the dissemination

of their political and religious agendas, as well as how a movement of Western supporters, born in very different conditions, guaranteed a unique relationship with these refugees.

Brain & Body Relationship - John Loeff 2021-04-05

The objective of this book is to point out some individuals who need some help; lots of it. How many medical problems do you have? What is the reason for these issues? Are loneliness, anger management, or procrastination perhaps part of the picture? How do you deal with feelings and emotions? Do they control you or vice versa? Another major factor could be stress management. How do you relax once in a while? Have you ever thought about your self-esteem? What self-esteem. Here is one philosophical question. What are your goals in life and how many do you reach? Be honest. Do happiness and success show up on your resume as well? Why not? Is it possible that you are dealing with psychosomatic problems? To find some solutions to your issues, read my book and pay attention to holistic medicine. Good luck.

The Essential Fromm - Erich Fromm 2014-12-09

As Fromm points out, ours is “a life between having and being”—between mere having and healthy being, between destructiveness and creativity, between narcissism and productive self-understanding, between passivity and the joy of positive activity. The alternatives of having and being are basic orientations of our character and determine our behavior. The mostly unpublished and unknown texts featured in *The Essential Fromm* encapsulate Fromm’s views on the fulfilling life. To put down roots yet remain free is what the late Erich Fromm called the art of being. It is the secret of happiness.

Rethinking the Curriculum - Orlando Nang Kwok Ho 2018-12-13
This book is an inter-disciplinary endeavour. Encompassing education and basic research, it discusses the modular-curriculum embodied in The Epistle from educational, historical, sociolinguistic, anthropological, phenomenological, and non-sectarian perspectives. It shows the cross-boundary philosophical reasoning and pedagogic dimensions of St. Paul as a great teacher and thinker from the Jewish-and-Christian faith. In doing so, this book refocuses academia's attention on the inevitable antimonic nature inherent in humans' efforts to create systemic knowledge. Knowledge about the inner aesthetic and volitional-interpretative self - the immanent psychic "I" - and other philosophical aspects of the realm of the transcendental should be rescued from the deepening trends of secularity. Being strong, powerful, productive, and performative should not be taken as the indisputable and exclusive aim of education. Science, Technology, Engineering, and Mathematics (STEM) do not constitute a sufficient basis for building a better humanity. Education via public curriculums ought to serve both the belly and the mind. Deliberative curricular recalibrations, with rationales for grace, are thus needed for a better future for humanity.... This book is relevant for anyone with a core fascination about truths, values, epistemologies, life, spirituality, and holistic human development. It can also be used as a textbook or a reference in a number of fields including counselling, psychology, translation, cultural studies, and theology.

Cognitive Humanistic Therapy - Richard Nelson-Jones 2004-03-31
`This excellent book outlines the theoretical base of Cognitive Humanistic Therapy, its links with religious thinking and clear practical guidelines on how to support clients to enhance their life skill. This extremely interesting book is a valuable additions to the therapists

toolkit' - Plus, Christian Council on Ageing `An intriguing book, full of surprises and unexpected insights into the human condition and the work of therapists. It offers practical resources for retreat conductors and spiritual accompaniers, with a comprehensive account of current counselling and psychotherapy practice. Working alongside Buddhists in Thailand, Richard Nelson Jones provides suggestions for living more fully, and suggests a variety of therapeutic interventions, based largely on Buddhist concepts, to make this possible' - Retreats, Quaker Retreat Group `A very informative and useful book for religious practitioners and others' - Reverend John Butt, Director, Institute for the Study of Religion and Culture, Payap University, Thailand `Richard Nelson-Jones is one of the few scholars with the erudition and breadth of experience necessary to link Christian and Buddhist traditions in the helping professions. This is much more than old wine in new bottles, and this book will introduce counsellors and therapists to new and better ways of understanding and helping the clients we treat' - Danny Wedding, Missouri Institute of Mental Health Cognitive Humanistic Therapy describes a new approach to psychotherapy and self-development, based on an understanding of what it means to be "fully human". In a unique integration of theory and practice, the book synthesises ideas from the cognitive and humanistic domains of psychotherapy and the religious worlds of Buddhism and Christianity. Written by bestselling author, Richard Nelson-Jones, Cognitive Humanistic Therapy explores the idea of being 'fully human' as a central goal of human existence, one which has traditionally been the province of religion. In this book, he examines ways in which psychotherapy and personal practice can help individuals develop in both their capacity to reason and their capacity to love. Beginning with the theoretical underpinnings of the Cognitive Humanistic perspective, the book goes on to show how clients can become equipped with the skills to tackle negative reactions and develop positive attributes such as goodwill, gratitude, compassion, equanimity, generosity, helping and service. This book presents a powerful new interpretation of the role of psychotherapy, which will be of interest to psychotherapists, counsellors, their clients, and also to religious people.

Forms of Fanonism - Reiland Rabaka 2010-03-08

When Frantz Fanon's critiques of racism, sexism, colonialism, capitalism, and humanism are brought into the ever-widening orbit of Africana critical theory something unprecedented in the annals of Africana intellectual history happens: five distinct forms of Fanonism emerge. *Forms of Fanonism: Frantz Fanon's Critical Theory and the Dialectics of Decolonization* is discursively distinguished from other engagements of Fanon's thought and texts insofar as it is the first study to consciously examine his contributions to Africana Studies and critical theory or, rather, the Africana tradition of critical theory. *Forms of Fanonism* identifies and intensely analyzes Fanon's contributions to the deconstruction and reconstruction of Africana Studies, radical politics, and critical social theory. In highlighting his unique 'solutions' to the 'problems' of racism, sexism, colonialism, capitalism, and humanism, five distinct forms of Fanonism materialize. These five forms of Fanonism allow contemporary critical theorists to innovatively explore the ways in which his thought and texts can be dialectically put to use in relieving the wretched experience of this generation's wretched of the earth. Critics can also apply these forms to deconstruct and reconstruct Africana Studies, radical politics, and critical social theory using their anti-imperialist interests. Throughout *Forms of Fanonism*, Reiland Rabaka critically dialogues with Fanon, incessantly asking his corpus critical questions and seeking from it crucial answers. This book, in short, solemnly keeps with Fanon's own predilection for connecting critical theory to revolutionary praxis by utilizing his thought and texts as paradigms and points of departure to deepen and develop the Africana tradition of critical theory.

Paradox in the Contrivance of Human Development - Robert Kowalski 2014-10-25

Paradox in the Contrivance of Human Development This book crosses disciplinary boundaries in a way that few books on human development do. Its strengths come from the fresh perspectives which emerge from the diverse fields that the author draws upon (e.g. Central Banking; Child Protection; Environment; Extension; Food Security; SMEs; Water and

Sanitation to name a few). It is an anthology of the author's recently published works with a leavening of contemporary material. The objective is to draw this rich material into a coherent whole that will meet the needs and interests of professionals, students and lay-enthusiasts alike. The author's insights come from his extensive experience juxtaposed with an academic perspective and educative engagement. This experience has been gained over many years working with various international development agencies from multilateral and bilateral donors to International Financial Institutions, UN agencies, non-government organisations, national and local institutions. The supportive, underpinning scholarship is both eclectic and thoroughgoing, augmenting essays on anthropology, economics, environment, management, philosophy, psychology, and sociology. The end result is a unique exploration of the issues that confront the theory and practice of human development.

Disconnect - Cristina Lope Yl Rosello 2011-05-20

Disconnect: The Filipino Comfort Women portrays the inner worlds of elderly women survivors of the Pacific War as they grapple with their psychological and historical disconnection, following the fifty-year postwar silence of sexual enslavement and captivity. Victimized at puberty, ego formation was nipped in the bud. When the war ended, they did not have any sense of who they were. They went through the motions of living, stuck in the time bubble where fragments of what had happened to them kept creeping up in their minds and hearts. To stop the unstoppable whirl of events in their psyche, these survivors explored suffering as the punctum saliens of their "e;existence."e; A number was surprised to discover that the inability to form a sense of self inadvertently spared them of the ego malaise inherent in humanity. It is

in the exploration of suffering that the book profoundly reaches out to the reader. After all, one need not be a war victim or a woman to have had experienced suffering in their lives.

Sacred Selfishness - Bud Harris, PhD 2011-02-11

While growing up, selfishness is defined for most people as a destructive force — power-driven, self-obsessed, a tyranny against others, and a drain on energy. Early lessons teach that the needs of others must be put above one's own. This has created a culture of outward-directed people, cut off from the inner sources of energy and vitality. Failing to develop one's individuality can eventually lead to depression and ill health. Only after becoming whole can one help others as well as society. This is the lesson of Sacred Selfishness, in which Jungian analyst Bud Harris argues persuasively that one must live authentically in order to be whole, happy, healthy, and a truly contributing member of society. This essential guide offers many strategies readers can use in order to live a "sacredly selfish" life, from analyzing dreams to keeping a detailed journal that teaches seekers to understand themselves, their worth, and their needs.

Christian Life and Practice - Owen C. Thomas 2009-01-01

This book is a study of the Christian life and the practice of Christians and the church from an Anglican perspective. It begins with an analysis and explication of the structure and process of the Christian life before God in the church and the world involving a five-fold rule of life and the relation of this to spiritual direction. This is followed by an analysis and critique of the current spirituality movement, which arose in the 1970s and which has come to dominate and mislead the churches. A sequel to the latter explains the origin of the spirituality movement in the current Romantic movement that arose in the 1960s and has influenced all aspects of our culture with ambiguous results. Next there is a critique of contemporary parish ministry as practiced in residential parishes that at best ministers only to the private lives of its members, followed by a fictional story of such a residential parish that suggests a new departure in parish ministry. Then there is a critique of preaching in the Episcopal Church that is generally considered to be poor, and a proposal of a way to overcome this. The concluding three chapters treat a fundamental

problem in our approach to private prayer and a way to resolve this, a proposal for a way to overcome the current impasse in the Anglican Communion concerning homosexuality, and a meditation on the responsibility of Christians in public life.

Speaking of Death: America's New Sense of Mortality - Michael K. Bartalos 2008-11-30

In the post-9/11 moments, months, and years, America has come to develop a new mortality awareness. Death, and our understanding that it can be sudden and is certainly inevitable, is being talked about more than ever before. As the team in this volume shows through groundbreaking research, surveys, interviews, and vignettes, death awareness has grown strong, and has changed the way we think and act, not only in relation to ourselves and our loved ones, but in relation to society overall. Those changes include nuances from increases in the number and size of college courses focused on death, rapid growth of death books, death photography, television shows dealing with death, as well as the recording and dissemination of death videos from those that show family members dying peacefully to the execution of terrorists or their captives. Impromptu street creations to memorialize common people who have died have emerged, as have new ways to dispose of dead bodies, including blasting ashes into space or placing them under the sea or giving them a green resting place in a natural forest. Our means of grieving, coping, and beliefs about afterlife have been altered, too. This work also includes a look at cosmologists and physicists who have revised their theories on humanity's legacy when our world meets a fateful end, who propose a means by which mankind's achievements might survive indefinitely, transporting from one universe to another without violating the known laws of physics. This book will intrigue all with an interest in considering not only death and how 9/11 changed America's views on and beliefs about it, but also considering what could lie beyond that end for all of us.

Beyond the Chains of Illusion - Erich Fromm 2017-12-28

First published in 1962 Beyond the Chains of Illusion is Fromm's landmark book about Marx and Freud. Here he delivers original readings of these hugely influential thinkers and, in doing so, offers us new ways of understanding the individual and society. Perhaps even more revealing than these readings is the insight we get into Fromm's own thought and the political and social contexts in which he formed his ideas. Including a foreword by Fromm's Literary Executor, Rainer Funk, this is unique introduction to Marx and Freud and also to Fromm's life and thought.

Transition to Common Work - Joe Mancini 2015-04-07

The Working Centre in the downtown core of Kitchener, Ontario, is a widely recognized and successful model for community development. Begun from scratch in 1982, it is now a vast network of practical supports for the unemployed, the underemployed, the temporarily

employed, and the homeless, populations that collectively constitute up to 30 percent of the labour market both locally and across North America. Transition to Common Work is the essential text about The Working Centre—its beginnings thirty years ago, the lessons learned, and the myriad ways in which its strategies and innovations can be adapted by those who share its goals. The Working Centre focuses on creating access-to-tools projects rather than administrative layers of bureaucracy. This book highlights the core philosophy behind the centre's decentralized but integrated structure, which has contributed to the creation of affordable services. Underlying this approach are common-sense innovations such as thinking about virtues rather than values, developing community tools with a social enterprise approach, and implementing a radically equal salary policy. For social workers, activists, bureaucrats, and engaged citizens in third-sector organizations (NGOs, charities, not-for-profits, co-operatives), this practical and inspiring book provides a method for moving beyond the doldrums of "poverty relief" into the exciting world of community building.

Doing More with Life - Michael Robert Miller 2007

Vocation is most often linked with a specific calling for those in professional ministry. Doing More with Life explores the way higher education can expand this limited understanding of vocation.

Specifically, this volume shows that higher education can clarify how God calls all people, allow mentoring across specific vocations, and inspire future generations to think of their lives as vocations.

Freirean Echoes - Charlotte Achieng-Evensen 2021-12-27

How do Paulo Freire's ideas echo across time and contexts? What does the dialogical nature of text mean for critical pedagogy today? Inspired by Freire, this text utilizes a dialogical framework, inviting the reader into a deeper conceptual and contextual consciousness through the use of many voices. The core of this book has been stored away for several years waiting for loving students of Freire to bring it to life. The original group of lectures is a collection of speeches from keynote panelists given at a Critical Pedagogy conference in 2015 hosted by the Paulo Freire Democratic Project, Attallah College of Educational Studies at Chapman University in Orange, California. Over 200 people attended the conference coming from all parts of the world. Special guest speakers included Dr. Nita Anamaria Freire from Universidade Federal de Mato Grosso (Paulo Freire's wife), Dr. Antonia Darder from Loyola Marymount University, Dr. Donald Macedo from University of Massachusetts, Dr. Peter McLaren and Dr. Tom Wilson from Chapman University. A highlight of the event was the rededication of the Paulo Freire Critical Pedagogy Archives housed in the university's Leatherby Libraries. These archives hold Paulo's personal notebook of study, his spectacles, instructional activity cards, and love notes to Nita. The collection also comprises original curriculum developed by Joe Kincheloe, protest posters from all over the world from Peter McLaren, paper mache puppets and curriculum developed by Alma Flor Ada and newspaper clippings and correspondences of Henry Giroux. Freirean Echoes acts as an archive housing the writings of these and other scholars and activists for posterity. A living collection, the book allows for author voices to be in dialogue with each other and with the reader. This collective "talking text" echoes, reverberates, and amplifies critical Freirean ideas, thereby inviting the reader to extend Freirean thought into their lived experiences. Perfect for courses such as: Special Topics on Emerging Issues in Sociology of Education | Introduction to Educational Theory |

The Self And Personality Structure - Paul Brinich 2002-07-16

What is the self and its relationship to personality theories? How do the central schools of psychotherapy conceptualize the self? The self is a notoriously difficult and at times obscure concept that underpins and guides much psychotherapy theory and practice. The corollary concept of personality is fundamentally linked to the concept of the self and has provided theorists and researchers in psychology with a more coherent set of principles with which to explicate the personal and attributional aspects of the self. The authors come from two quite separate schools of depth psychology (psychoanalytic and Adlerian) and provide an overview of the self and how it is conceptualized across the psychotherapies within various theories of personality. In addition to outlining some of the philosophical and historical issues surrounding the notion of selfhood, the authors examine classical and developmental models of psychoanalytic thought that implicitly point to the idea of self. The authors also outline Kohut's psychoanalytic self psychology in addition to Adlerian and other post Freudian, Jungian and post-Jungian, cognitive, humanistic, and existential contributions to the self and personality structure.

Creative Arts in Education and Culture - Samuel Leong 2013-12-01

This book offers insights into the exciting dynamics permeating creative arts education in the Greater China region, focusing on the challenges of forging a future that would not reject, but be enriched by its Confucian and colonial past. Today's 'Greater China' - comprising China, Hong Kong, Macau and Taiwan - has grown into a vibrant and rapidly transforming region characterized by rich historical legacies, enormous dynamism and exciting cultural metamorphosis. Concomitant with the economic rise of China and widespread calls for more 'creative' and 'liberal' education, the educational and cultural sectors in the region have witnessed significant reforms in recent years. Other factors that

will influence the future of arts education are the emergence of a 'new' awareness of Chinese cultural values and the uniqueness of being Chinese.

Life Itself Is an Art - Rainer Funk 2019-06-13

A Choice Outstanding Academic Title of the Year Erich Fromm (1900-1980) is known to most readers as the author of the international bestseller *The Art of Loving* (1956). What may be less widely known is that Fromm was a social psychoanalyst whose psychoanalytic theories, developed around a humanistic concept of man and society, have had a profound impact on many fields and disciplines: on social life and societal organization, on politics, on religion, on psychotherapy and, last but not least, on the practice of mindfulness. Rainer Funk was Erich Fromm's last assistant. He wrote his dissertation about Fromm, was designated by Fromm's last will to be his sole literary executor, and is the editor of Fromm's writings. From his very intimate knowledge of Fromm's life and ideas, and his access to an archive that includes 6,000 letters, Funk introduces Fromm's central concepts and examines them in relation to Fromm's lived experiences and to his idea that life itself is an art. The question of "the art of living" runs through all of the chapters, from the Introduction, in which Funk describes meeting Fromm for the first time in 1972, to the last chapter, in which Funk reflects on the impact of Fromm's social-psychoanalytic writings and his efforts to live well.

Heritage, Nostalgia and Modern British Theatre - Benjamin Poore 2011-11-15

The stage portrayal of the Victorians in recent times is a key reference point in understanding notions of Britishness, and the profound politicisation of that debate over the last four decades. This book throws new light on works by canonical playwrights like Bond, Edgar, and Churchill, linking theatre to the wider culture at large.

Erich Fromm - Rainer Funk 2000-01-01

This lavishly illustrated biography covers Fromm's entire life, from his traditional Jewish upbringing to his association with the Frankfurt School. Fromm's work (1900-1980) is more compelling and popular in our century than ever before. It took a decisive turn as he encountered Freudian psychoanalysis--even as Fromm critiqued it throughout much of his lifetime. Funk covers with great sensitivity Fromm's seminal work with the so-called Frankfurt School of social critics as well as his break with it, his move to the U.S., his personal and professional relationship with Karen Horney, his associations with The New School in New York City and with D.T. Suzuki--living in Mexico "part time." More than 200 photographs and other memorabilia make this a compelling pictorial biography.

The Culture and Philosophy of Ridley Scott - Adam Barkman 2013-03-08

The Culture and Philosophy of Ridley Scott, edited by Adam Barkman, Ashley Barkman, and Nancy Kang, brings together eighteen critical essays that illuminate a nearly comprehensive selection of the director's feature films from cutting-edge multidisciplinary and comparative perspectives. Chapters examine such signature works as *Alien* (1979), *Blade Runner* (1982), *Thelma and Louise* (1991), *Gladiator* (2000), *Hannibal* (2001), *Black Hawk Down* (2001), and *American Gangster* (2007). This volume divides the chapters into three major thematic groups: responsibility, remembering, and revision; real, alienated, and ideal lives; and gender, identity, and selfhood. Each section features six discrete essays, each of which forwards an original thesis about the film or films chosen for analysis. Each chapter features close readings of scenes as well as broader discussions that will interest academics, non-specialists, as well as educated readers with an interest in films as visual texts. While recognizing Scott's undeniable contributions to contemporary popular cinema, the volume does not shy away from honest and well-evidenced critique. Each chapter's approach correlates with philosophical, literary, or cultural studies perspectives. Using both combined and single-film discussions, the contributors examine such

topics as gender roles and feminist theory; philosophical abstractions like ethics, honor, and personal responsibility; historical memory and the challenges of accurately rendering historical events on screen; literary archetypes and generic conventions; race relations and the effect of class difference on character construction; how religion shapes personal and collective values; the role of a constantly changing technological universe; and the schism between individual and group-based power structures. *The Culture and Philosophy of Ridley Scott* assembles the critical essays of scholars working in the fields of philosophy, literary studies, and cultural studies. An international group, they are based in

the United States, Canada, Argentina, Italy, Greece, Korea, the United Kingdom, and New Zealand. The guiding assumption on the part of all the writers is that the filmmaker is the leading determiner of a motion picture's ethos, artistic vision, and potential for audience engagement. While not discounting the production team (including screenwriters, actors, and cinematographers, among others), auteur theory recognizes the seminal role of the director as the nucleus of the meaning-making process. With Scott an active and prolific presence in the entertainment industry today, the timeliness of this volume is optimal.
