Retirement Migration from the U.S. to Latin American Colonial Cities - Philip D. Sloane 2020-01-14

This book provides a comprehensive overview of a growing phenomenon in migration: retired Americans moving to Latin America. Through in-depth profiles of two of the most popular destinations – Cuenca, Ecuador and San Miguel de Allende, Mexico, the book provides a unique commentary on the social forces shaping this new diaspora and its impact on the settings to which retirees relocate. Sections of the book address the lives and activities of retirees themselves; their impact on real estate, business development, and gentrification within historic cities; the availability and access to medical and long-term care services; and the role of governmental policies in attracting immigrant retirees and shaping their societal impact. Concluding sections provide guidance for potential retirees and for cities and countries interested in attracting these new immigrants

while minimizing adverse impact on local culture and quality of life. Carefully researched and extensively illustrated with photographs, maps, figures, and tables, the book serves as an important new resource for scientists and policy makers, as well as for baby boomers who have retired abroad or are considering doing so.

Radical Newcastle - James Bennett 2015-04-01
The Star Hotel in Newcastle has become a site of defiance for the marginalized young and dispossessed working class. To understand the whole story of the Star Hotel riot, it should be seen in the context of other moments of resistance such as the 1890 Maritime Strike, Rothbury miners' lockout in 1929 and the recent battle for the Laman Street fig trees. As Australia's first industrial city, Newcastle is also a natural home of radicalism but until now, the stories which reveal its breadth and impact have

remained untold. Radical Newcastle brings together short illustrated essays from leading scholars, local historians and present day radicals to document both the iconic events of the region's radical past, and less well known actions seeking social justice for workers, women, Aboriginal people and the environment

Urban Planning and Real Estate Development -

John Ratcliffe 2009-01-19

The twin processes of planning and property development are inextricably linked - it's not

possible to carry out a development strategy without an understanding of the planning process, and equally planners need to know how real estate developers do their job. This third edition of Urban Planning and Real Estate Development guides students through the procedural and practical aspects of developing land from the point of view of both planner and developer. The planning system is explained, from the increasing emphasis on spatial planning at a regional level down to the detailed perspective of the development control process and the specialist requirements of historic buildings and conservation areas. At the same time the authors explain the entire development process from inception through appraisal, valuation and financing to completion and disposal. This is an invaluable textbook for real estate and planning students, and helps to meet the requirements of the RICS and RTPI Assessment of Professional Competence.
