Sports Sponsorship - John A. Fortunato 2013-08-03

This book focuses on how the sponsorship of sports works: the costs, the goals, evaluation and selection of the property a sponsor chooses, how to activate a sponsorship, how to create a brand association, public relations and brand image possibilities. Anything is possible in a sponsorship, it is simply what the sponsor and the property can agree to during their negotiations. There is, for example, the opportunity for product category exclusivity—no competing brand at a particular location. With the audience being harder to reach because of technology, sponsorship continues to be a viable way to obtain brand exposure and better connect a brand with a consumer. With global sponsorship spending totaling more than \$51 billion, it is clear that many companies see this as an important promotional communication strategy. Jewish Youth and Identity in Postwar France - Daniella Doron 2015-09-28

"Highlights the debates surrounding family and identity as French Jewish communities slowly recovered and reestablished their place in the French nation." —Choice At the end of World War II, French Jews faced a devastating demographic reality: thousands of orphaned children, large numbers of single-parent households, and families in emotional and financial distress. Daniella Doron suggests that after years of occupation and collaboration, French Jews and non-Jews held contrary opinions about the future of the nation and the institution of the family. At the center of the disagreement was what was to become of the children. Doron traces emerging notions about the postwar family and its role in strengthening Jewish ethnicity and French republicanism in the shadow of Vichy and the Holocaust. "Doron's book appears at a key moment. Its emphasis on children emerging from hunger, displacement and war should render it standard reading for policymakers, NGOs and others interested in shaping the destinies of today's abandoned children." —French History "Raises fundamental questions for the understanding of not only Jewish reconstruction in post-World War II France, but also Holocaust memory, postwar French society and culture and the history of postwar European families and children." —French Politics, Culture and Society "Doron's deftly argued and well researched book is an important intervention into a growing body of scholarship on the postwar decade. She convincingly documents the central role that the rehabilitation of Jewish children and the reconstruction of Jewish families played in post-war French Jewish reconstruction and underscores the importance of the decade following the war in shaping Jewish historical evolution in France." —Maud Mandel, author of Muslims and Jews in France

Community Programs to Promote Youth Development - Institute of Medicine 2002-02-12

After-school programs, scout groups, community service activities, religious youth groups, and other community-based activities have long been thought to play a key role in the lives of adolescents. But what

do we know about the role of such programs for today's adolescents? How can we ensure that programs are designed to successfully meet young people's developmental needs and help them become healthy, happy, and productive adults? *Community Programs to Promote Youth Development* explores these questions, focusing on essential elements of adolescent well-being and healthy development. It offers recommendations for policy, practice, and research to ensure that programs are well designed to meet young people's developmental needs. The book also discusses the features of programs that can contribute to a successful transition from adolescence to adulthood. It examines what we know about the current

landscape of youth development programs for America's youth, as well as how these programs are meeting their diverse needs. Recognizing the importance of adolescence as a period of transition to adulthood, *Community Programs to Promote Youth Development* offers authoritative guidance to policy makers, practitioners, researchers, and other key stakeholders on the role of youth development programs to promote the healthy development and well-being of the nation's youth.
